

CGA H-10—2018

**COMBUSTION SAFETY FOR
STEAM REFORMER OPERATION**

SECOND EDITION

CGA
Compressed Gas Association
The Standard For Safety Since 1913

PREFACE

As part of a program of harmonization of industry standards, the Compressed Gas Association (CGA) has published CGA H-10, *Combustion Safety for Steam Reformer Operation*, jointly produced by members of the International Harmonization Council.

This publication is intended as an international harmonized standard for the worldwide use and application of all members of the Asia Industrial Gases Association (AIGA), Compressed Gas Association (CGA), European Industrial Gases Association (EIGA), and Japan Industrial and Medical Gases Association (JIMGA). Each association's technical content is identical, except for regional regulatory requirements and minor changes in formatting and spelling.

PLEASE NOTE:

The information contained in this document was obtained from sources believed to be reliable and is based on technical information and experience currently available from members of the Compressed Gas Association, Inc. and others. However, the Association or its members, jointly or severally, make no guarantee of the results and assume no liability or responsibility in connection with the information or suggestions herein contained. Moreover, it should not be assumed that every acceptable commodity grade, test or safety procedure or method, precaution, equipment or device is contained within, or that abnormal or unusual circumstances may not warrant or suggest further requirements or additional procedure.

This document is subject to periodic review, and users are cautioned to obtain the latest edition. The Association invites comments and suggestions for consideration. In connection with such review, any such comments or suggestions will be fully reviewed by the Association after giving the party, upon request, a reasonable opportunity to be heard. Proposed changes may be submitted via the Internet at our website, www.cganet.com.

This document should not be confused with federal, state, provincial, or municipal specifications or regulations; insurance requirements; or national safety codes. While the Association recommends reference to or use of this document by government agencies and others, this document is purely voluntary and not binding unless adopted by reference in regulations.

A listing of all publications, audiovisual programs, safety and technical bulletins, and safety posters is available via the Internet at our website at www.cganet.com. For more information contact CGA at Phone: 703-788-2700, ext. 799. E-mail: customerservice@cganet.com.

Work Item 17-051
HYCO Committee

NOTE—Technical changes from the previous edition are underlined.

Contents	Page
1 Introduction.....	1
2 Scope and purpose	1
2.1 Scope	1
2.2 Purpose	1
3 Definitions.....	2
4 Fundamentals of combustion safety.....	5
4.1 Combustion fundamentals.....	5
4.2 Basic combustion hazards	6
5 Steam reformer	6
5.1 Top-fired steam reformers	7
5.2 Side-fired steam reformers	8
5.3 Bottom-fired steam reformers.....	9
6 Personnel safety.....	9
6.1 Personal protective equipment.....	9
6.2 Areas of potential personnel exposure.....	10
6.3 Specific combustion safety hazards and appropriate safeguards	11
7 Controls and instrumentation	12
7.1 General.....	12
7.2 Control functions.....	12
7.3 Instrumentation considerations.....	13
7.4 Unattended or partially attended plants.....	15
8 Interlocks/Permissives.....	15
8.1 General.....	15
8.2 Components and integrity	15
8.3 Function and hazard protection	16
8.4 Testing considerations.....	18
9 Operating considerations	18
9.1 General.....	18
9.2 Regulation of operations.....	18
10 Maintenance and inspections.....	18
10.1 General.....	18
10.2 On-line furnace inspections	19
10.3 Off-line furnace inspections	19
11 References	20
