

Australian Standard<sup>®</sup>

---

**Test methods for general access  
floors**

**Part 0: Introduction and list of  
methods**

---

This Australian Standard was prepared by Committee BD/63, General Access Floors. It was approved on behalf of the Council of Standards Australia on 30 September 1993 and published on 13 December 1993.

---

The following interests are represented on Committee BD/63:

Australian Chamber of Commerce and Industry  
Australian Federation of Construction Contractors  
Australian Institute of Refrigeration, Air Conditioning and Heating  
Australian Wood Panels Association  
CSIRO, Division of Building, Construction & Engineering  
Metal Trades Industry Association of Australia  
National Precast Concrete Association  
New South Wales Fire Brigades  
Plywood Association of Australia  
Timber Preservers Association of Australia

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
