

Australian Standard™

**Methods of testing plastics waste
fittings**

Part 0: Introduction and list of methods

This Australian Standard was prepared by Committee PL-045, Plastics Pipe Systems Test and Calculation. It was approved on behalf of the Council of Standards Australia on 7 June 2002 and published on 17 June 2002.

The following are represented on Committee PL-045:

Auspoly
Australian Chamber of Commerce
Australian Gas Association
Australian Nuclear Science and Technology Centre
Business New Zealand
CSIRO Building, Construction and Engineering
Certification Bodies (Australia)
Composites Association New Zealand
Composites Institutes of Australia
Institution of Engineers
Master Plumbers, Gasfitters and Drainlayers New Zealand
New Zealand Water and Waste Association
PVC Pipelines Industry Association of Australasia
Plastics New Zealand
Plastics and Chemicals Industry Association
Water Services Association of Australia

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Australian Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.com.au, or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.

This Standard was issued in draft form for comment as DR 01366.
