Environmental hazard—contain spillage.

EMERGENCY CONTACTS

POLICE OR FIRE BRIGADE: Dial 000

POISONS INFORMATION CENTRE: Dial 13 11 26

Organization	Location	Telephone	Ask for
		Include area code in brackets	

HAZARDS

Fire	Fire or heat will produce poisonous and flammable vapours. May decompose explosively when heated or involved in a fire. Containers can explode when heated.
Health	POISONOUS, MAY BE FATAL IF INHALED, SWALLOWED OR ABSORBED THROUGH SKIN. Inhalation, ingestion or contact with substance can cause severe irritation, injury or death. Runoff from fire control or dilution water can be poisonous and can pollute waterways.

PROTECTIVE CLOTHING*

Emergency responders	Wear SCBA and chemical splash suit. Fully-encapsulating, gas-tight suit should be worn for maximum protection. Structural firefighter's uniform is NOT effective for this material.

EMERGENCY PROCEDURES*

If this happens	Do this
For all emergencies	<p>IMMEDIATELY CONTACT POLICE OR FIRE BRIGADE.</p> <p>Spill or leak area should be isolated immediately for at least 25 m in all directions. Keep unauthorized personnel away. Keep upwind and to higher ground. Ventilate enclosed spaces before entering. Shut off engine and electrical equipment and leave 'off'. Send message to police and fire brigade. Tell them the location, material, UN Number, quantity and emergency contact (name and phone number) as well as condition of vehicle and damage observed. Wear SCBA and full protective clothing.</p> <p>Large spill: Consider initial downwind evacuation for at least 250 m. Large fire: When any large load is involved in a fire, consider initial evacuation for at least 800 m in all directions.</p>
