

AS 2461—1981

Australian Standard[®]

**MINERAL WOOL THERMAL
INSULATION—LOOSE FILL**

The following scientific, industrial and governmental organizations and departments were officially represented on the committee entrusted with the preparation of this standard:

Acceptable Standards of Construction Committee, N.S.W.
Association of Consulting Engineers
Australian Cellulose Insulation Manufacturers Association
Australian Federation of Consumer Organizations
Australian Institute of Building
CSIRO, Division of Building Research
CSIRO, Division of Mechanical Engineering
Department of Housing and Construction
Experimental Building Station
Housing Commission of Victoria
Housing Department of Tasmania
Housing Industry Association Australia
Interstate Standing Committee on Uniform Building Regulations
Master Builders Federation of Australia Incorporated
Mineral Wool Manufacturers Association of Australia
Plastics Institute of Australia Incorporated
Royal Australian Institute of Architects
Thermal Insulation Contractors Association (New South Wales)
Thermal Insulation Institute of Australia
University of Melbourne
University of Sydney

This standard, prepared by Committee BD/58, Thermal Insulation of Dwellings, was approved on behalf of the Council of the Standards Association of Australia on 10 April 1981, and was published on 15 June 1981.

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 77172.

Australian Standard[®]

**MINERAL WOOL THERMAL
INSULATION—LOOSE FILL**

First published 1981

PREFACE

This standard was prepared by the Association's Committee on Thermal Insulation of Dwellings. It is one of a series of standards relating to thermal insulating materials.

The methods of installing the material in dwellings are dealt with in AS, The Installation of Thermal Insulation in Dwellings.* The design requirements for the use of this material are being prepared as a series of Australian standards, the first of which is AS, Recommended Levels of Thermal Insulation for Roof/Ceiling Elements in Existing Dwellings Requiring Winter Heating.*

This standard requires reference to the following standards:

AS 1530	Method for Fire Tests on Building Materials and Structures Part 3—Test for Early Fire Hazard Properties of Materials
AS 2352	Glossary of Terms for Thermal Insulation of Buildings
AS 2464	Methods of Testing Thermal Insulation 2464.3—Thermal Resistance of Low-density Fibrous Loose-fill Thermal Insulation.

*In course of preparation

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.
