

Australian Standard[®]

Geotextiles—Methods of test

**Part 0: General introduction and
list of methods**

This Australian Standard was prepared by Committee CE/20, Geotextiles. It was approved on behalf of the Council of Standards Australia on 22 November 1989 and published on 15 October 1990.

The following interests are represented on Committee CE/20:

Association of Consulting Engineers Australia
Australian Geomechanics Society
Australian Polyolefin Textiles Association
Australian Wool Testing Authority
Austroads
CSIRO, Division of Wool Technology
Metal Trades Industry Association of Australia
Plastics Institute of Australia
Railways of Australia Committee
Rural Water Commission, Vic.
Textile Clothing and Footwear Council of Australia
University of New South Wales
University of Technology, Sydney
Water Resources Commission, Qld

Review of Australian Standards. *To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.*

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 85232.
