Australian Standard 2441-1983

INSTALLATION OF FIRE HOSE REELS

STANDARDS ASSOCIATION OF AUSTRALIA
Incorporated by Royal Charter

This Australian standard was prepared by Committee FP/7, Fire Hose Reels. It was approved on behalf of the Council of the Standards Association of Australia on 29 March 1983 and published on 6 June 1983.

The following interests are represented on Committee FP/7:

Board of Fire Commissioners of New South Wales
Building Owners and Managers Association of Australia Limited
Commonwealth Fire Board
Confederation of Australian Industry
Country Fire Authority, Victoria
Department of Defence
Department of Transport and Construction
Fire Protection Industry Association of Australia Ltd
Insurance Council of Australia
Plastics Institute of Australia Inc.
Telecom Australia

To keep abreast of progress in industry, Australian standards are subject to continuous review and are kept up-to-date by the issue of amendments or new editions as necessary. It is important therefore that standards users ensure that their standards are up-to-date. Full details of all SAA publications will be found in the Annual List of Australian Standards; these details are supplemented by listings in the SAA monthly journal 'The Australian Standard'. Information on the Annual List and 'The Australian Standard' may be obtained from any sales office of the Association, where details are also available of the current status of individual standards. Suggestions for improvements to published standards, addressed to the head office of the Association, are welcomed.

PREFACE

This edition of this standard was prepared by the Association's Committee on Fire Hose Reels to supersede AS 2441—1981.

This edition provides clarification of the commissioning tests, but is otherwise technically identical with the former edition. An editorial change in line with current SAA policy is transfer of the list of referenced standards to the body of the standard (see new Clause 2).
