

Australian Standard™

**Timber—Hardwood—Sawn and milled
products**

Part 1: Product specification

This Australian Standard was prepared by Committee TM/7, Sawn, Milled and Specialty Timber Products. It was approved on behalf of the Council of Standards Australia on 13 August 1999 and published on 5 September 1999.

The following interests are represented on Committee TM/7:

Australian Building Codes Board
Australian Timber Importers Federation
Construction Information Systems, Australia
Consumers Federation of Australia
CSIRO—Forestry and Forest Products
Department of Conservation and Land Management, Western Australia
Forestry Queensland
Furntech
Housing Industry Association
New Zealand Timber Industry Federation
New Zealand Timber Supplies Group
Pine Australia
Royal Melbourne Institute of Technology
State Forests of New South Wales
Timber Promotion Council
Timber Research and Development Advisory Council of Queensland

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 98247.

PREFACE

This Standard was prepared by Joint Standards Australian/Standards New Zealand Committee TM/7, Sawn, Milled and Speciality Timber Products, to supersede (in part) AS 2796—1985, *Timber—Seasoned hardwood—Milled products*, (in part) AS 1261—1972, *Wood mosaic parquet*, AS 2796.P1—1985, *Wall chart—Summary of surface finishes for seasoned hardwood milled products* (in accordance with AS 2796), AS 2796.P2—1985, *Wall chart—Summary of permissible machining imperfections for seasoned hardwood milled products* (in accordance with AS 2796) and (in part) AS O71—1960, *Wood blocks for parquetry flooring*.

This Standard is the result of a consensus among Australian and New Zealand representatives on the joint committee to produce it as an Australian Standard.

The objective of this Standard is to provide producers and users with product requirements for solid hardwood timber sawn and milled products, and sawn boards intended as feedstock for such products, intended for use in building. Some of the products specified in this Standard are required to be structurally adequate for their intended use.

This Standard is Part 1 of the AS 2796 series, which consists of the following:

AS

- 2796 Timber—Hardwood—Sawn and milled products
- 2796.1 Part 1: Product specification (this Standard)
- 2796.2 Part 2: Grade description
- 2796.3 Part 3: Timber for furniture components

Parts 1 and 2 supersede AS 2796—1985, AS 1261 and AS O71.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the appendix to which they apply. A ‘normative’ appendix is an integral part of a Standard, whereas an ‘informative’ appendix is only for information and guidance.

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.

STANDARDS AUSTRALIA

Australian Standard

Timber—Hardwood—Sawn and milled products

Part 1: Product specification

SECTION 1 SCOPE AND GENERAL

1.1 SCOPE

This Standard specifies product requirements, including tolerances, for tongued and grooved strip flooring, light decking, overlay strip flooring, parquet flooring, lining, dressed boards, joinery, mouldings, cladding, fascia and bargeboards sawn or milled from hardwood.

This Standard also specifies product requirements, including tolerances, for sawn boards intended as feedstock for the above products.

NOTES:

- 1 The coverage by this Standard of all hardwood species does not imply their availability nor the availability of every grade (see Clause 1.5) in any species or species group.
- 2 Milled timber for window frames, sashes and sills is specified in AS 2047.1.
- 3 Timber for furniture components is specified in AS 2796.3.
- 4 Guidance on information to be supplied by purchasers is given in Appendix A.
- 5 This Standard may be used as a basis for a third party product certification scheme.

1.2 APPLICATION

Sawn and milled timber products shall comply with the applicable general requirements and product requirements given in the appropriate Section or Appendix as follows:

- (a) General requirements..... Section 2.
- (b) Strip flooring Section 3.
- (c) Light decking Section 4.
- (d) Parquet flooring Section 5.
- (e) Lining..... Section 6.
- (f) Dressed boards, joinery and mouldings Section 7.
- (g) Cladding, fascia and bargeboards..... Section 8.
- (h) Sawn boards for feedstock (dressing)..... Section 9.
- (i) Overlay strip flooringSection 10.
- (j) Limits of machining imperfections and surface finish imperfections Appendix B.
- (k) Permissible limits for bow, spring, twist and cup Appendix C.

NOTE: This Standard should be read in conjunction with AS 2796.2 which provides grade descriptions appropriate for use when specifying the above products (see Clause 1.5).
