

Australian Standard®

**Complete, filled transport packages—
Methods of test****Method 14: Water immersion test**

PREFACE

This Standard was prepared by Standards Australia Committee PK-012, Physical Testing of Packages and Containers, as an additional part to the AS 2582 series of test methods. It is identical with and has been reproduced from ISO 8474:1986, *Packaging—Complete, filled transport packages—Water immersion test*.

As this Standard is reproduced from an International Standard, the following modifications apply:

- (a) Its number does not appear on each page of text and its identity is shown on the cover and title page.
- (b) In the source text, ‘this International Standard’ should read ‘this Australian Standard.’
- (c) A full point substitutes for a comma when referring to a decimal marker.

References to International Standards should be replaced by references to equivalent Australian Standards as follows:

<i>Reference to International Standard</i>	<i>Australian Standard</i>
ISO	AS
2233 Packaging—Complete, filled transport packages—Conditioning for testing	2582 Complete, filled transport packages—Methods of test
	2582.2 Method 2: Conditioning for testing
