

Australian Standard™

Methods of testing roof tiles

Part 0: Introduction and list of methods

This Australian Standard was prepared by Committee BD-008, Roof Tiles. It was approved on behalf of the Council of Standards Australia on 28 August 2002 and published on 30 October 2002.

The following are represented on Committee BD-008:

Australian Building Codes Board
Australian Council of Trade Unions
CSIRO, Division of Building, Construction and Engineering
Housing Industry Association, Australia
Master Builders Australia
Master Tilers, Slaters and Shinglers Association of NSW
Monash University
NSW Roofing Tile Association
National Roof Tiling Industry Training Committee
Queensland Master Roof Tilers Association
Victorian Roofing Tile Association

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Australian Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.com.au, or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.
