

Australian Standard™

Coated abrasives—Abrasive rolls

This Australian Standard was prepared by Committee ME-033, Abrasives. It was approved on behalf of the Council of Standards Australia on 22 March 2005. This Standard was published on 7 April 2005.

The following are represented on Committee ME-033:

Abrasives Institute of Australia
Australian Business
Australian Chamber of Commerce and Industry
Industrial Diamond Association
University of Melbourne
Victorian Employer's Chamber of Commerce

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Web Shop at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Global Standard*, has a full listing of revisions and amendments published each month.

Australian Standards™ and other products and services developed by Standards Australia are published and distributed under contract by SAI Global, which operates the Standards Web Shop.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to the Chief Executive, Standards Australia, GPO Box 5420, Sydney, NSW 2001.

This Standard was issued in draft form for comment as DR 04462.

Australian Standard™

Coated abrasives—Abrasive rolls

Originated as part of AS B279—1968.
Previous editions AS/NZS 4528:1998, AS/NZS 4529:1998 and AS/NZS 4530:1998.
Revised, amalgamated and redesignated as AS 4638—2005.

PREFACE

This Standard was prepared by the Standards Australia Committee ME-033, Abrasives, to supersede, AS/NZS 4528:1998, *Coated abrasives—General purpose rolls—Any backing—Designation and dimensions*, AS/NZS 4529:1998, *Coated abrasives—Rolls for widths of 50 mm and greater—Any backing—Designation and dimensions* and AS/NZS 4530:1998, *Coated abrasives—Cloth rolls up to and including 40 mm width—Designation and dimensions*.

This Standard is identical with, and has been reproduced from ISO 3366:1999, *Coated abrasives—Abrasive rolls*.

The objective of this Standard is to provide manufacturers and users of coated abrasive products with dimensions and their designation for general purpose rolls of coated abrasives.

The objective of this revision is to adopt the current ISO Standard on this topic.

As this Standard is reproduced from an international Standard, the following applies:

- (a) Its number appears on the cover and title page while the International Standard number appears only on the cover.
- (b) In the source text, 'this International Standard' should read 'this Australian Standard'.
- (c) A full point substitutes for a comma when referring to a decimal marker.

References to international Standards should be replaced by equivalent Australian, New Zealand or Australian/New Zealand Standards, as follows:

<i>Reference to International Standard</i>	<i>Australian/New Zealand Standard</i>
ISO	AS/NZS
554 Standard atmospheres for conditioning and/or testing—Specifications	—
