EMERGENCY CONTACTS

POLICE OR FIRE BRIGADE: DIAL 000—IF INEFFECTIVE DIAL 1100 (EXCHANGE)
POISONS INFORMATION CENTRE: 13 11 26

Organization	Location	Telephone	Ask for
		Include area code in brackets	

HAZARDS

FIRE OR EXPLOSION	May explode from heating, shock, friction or contamination. Some will react explosively with hydrocarbons (oil, fuels). May ignite combustibles (wood, paper, clothing, etc.). May be ignited by heat, sparks or flames. May burn rapidly with a flare-burning effect. Containers may explode when heated.
HEALTH AND ENVIRONMENT	Fire may produce irritating, poisonous and/or corrosive gases. Contact with vapour or substance with eyes may cause blindness within minutes. PROTECT EYES UNTIL DECONTAMINATION IS OVER. Inhalation or contact with vapour, dusts or substance may cause severe injury, burns or death. Toxic fumes or dust may accumulate in confined areas (basements, tanks, silos, etc.). Runoff from fire control or dilution water may pollute waterways.

PROTECTIVE CLOTHING

EMERGENCY RESPONDERS	Wear SCBA and chemical splash suit. Structural firefighter's uniform will only provide limited protection. PROTECT EYES UNTIL DECONTAMINATION IS OVER.
